Playing at an online casino is very simple and safe. Each casino is a little bit different but the basic principle stays the same no matter which site you choose. If you are playing for the first time or just want to refresh your memory, check out our guide on how to start playing at an online casino. You will find specific welcome bonus related instructions on our detailed casino reviews. Total Time: 5 minutes. Estimated Cost: \$25. How to Choose the Right Casino? With over 2,000 different casinos currently operating, choosing the perfect one can feel like a daunting task. But there are a lot of different things that can help players find their favorite gaming site. First of all, review sites like us have tons of knowledge of the industry and different companies. Also we are trying our best to introduce all the best options in different categories on our casino list. All this so that you, the players, don't have to waste your time on sites that don't offer services you require. You need to ask yourself, what are you looking for in an online casino? If you want to try out huge amounts of slots, play jackpot games and enjoy the live tables at a live casino, you should focus on brands with a wide gaming selection. Just make sure that the casino has providers like NetEnt, Yggdrasil, Microgaming and Evolution Gaming who are offering hundreds of games that have become the players' favorites. If you don't like to have many accounts on different casinos and instead want to focus on a really good one, you should check the loyalty programs. Sites that offer prizes when you level up, give cashbacks, have VIP programs and send out exclusive promotions are rewarding for loyal customers. On the other hand bonus hunters who like to jump around and chase offers only need to focus on the best possible deals out there. Casino List: Review Criteria. We believe in transparency and therefore we'd like to guide you through our rating process and criteria. Our reviews are one of the toughest out there and we only accept brands to our site that have gone through a thorough quality check. Magnificent (10): The casino has a respectable license, it caters to players from various countries, offers at least 3,000 games and comes with a big welcome bonus (with fair terms). Money transfers are fast and withdrawal limits are high. Brilliant (9): Same features as below but the game selection is a bit smaller. We expect to see plenty of choice for payments, a 24/7 customer service and weekly campaigns. Very Good (8) : At least a 100% match-up bonus for first deposit and over 1,000 slots + good live casino. Accepts players from all major markets and has occasional casino promotions. Good (7): The casino is licensed. Standard payment methods like Visa and Mastercard are available, direct bank transfer and e-wallets for payments and over 1,000 games. We do not add casinos that have 7 or lower grade to our online casino lists. Inadequate (6) : Broad country restrictions, no welcome bonus or extremely bad terms, less than 1,000 games and no big providers. Low withdrawal limits. These casinos will never appear on our casino list. Poor (4-5): No gaming license, unsafe or unreliable gaming site. We will actively warn players about these blacklisted casinos on our site. Are Online Casinos Safe? Yes, generally speaking online casinos are very safe. There might be some rotten eggs in the mix but they are easy to spot a mile away. What you need to know is: online casino industry is highly regulated, meaning all licensed casinos are constantly under review by the authorities. So you don't need to worry about anything as long as you play

at an authorized site. All brands appearing on our casino list operate under a gaming license. Acquiring the license is a long and expensive process where gaming authorities go through the finances, practices and reliability of the company that is applying for the remote gambling permit. Only after this thorough verification the license will be approved and even after that they will keep an eye on all operators like Sauron in the Middle Earth. The most known gaming authorities are currently the MGA, UK Gambling Commission, Curacao Gaming and EMTA. Online casinos also need to follow certain guidelines to prevent e.g. gambling addiction, underage gambling and money laundering. So gaming providers don't live in the Wild West. If you ever run into any trouble, you can contact gaming authorities directly and they will assist you further thanks to several dispute procedures. All transactions are processed via well-known payment services such as Visa, Mastercard, Interac, Skrill or Neteller. These services are used by billions of people around the world daily. It is not just casinos that need to follow specific guidelines. Gaming providers also need to apply for a license and consent to regular checks. All slots use RNG (Random Number Generator) that always guarantees a completely coincidental result on each spin. So don't worry, you can safely pick a site from our online casino list and enjoy thousands of audited real money casino games. FAQ: Online Casino List. How to Pick the Best Site on Our Casino List?
