 you join a casino VIP program will be dependent on the casino you are visiting. For the most part,  
 players are automatically enrolled. Once you join an online gaming site, you are automatically placed at  
 the bottom tier of the program. As you play for real money, you will then earn points which helps you to  
 move up the VIP tier system. In other instances, a VIP program might require players to sign up or opt-in.  
 Visit the online casino's VIP or Reward Program page to find out what steps you need to take to get  
 started. How Does a VIP Program Differ from Regular Bonus Play. When visiting an online casino, you  
 have the option to take advantage of bonus promotions and a VIP program. It is important to learn the  
 difference between the two categories so you know what your gameplay is going towards. With a VIP  
 program, when you wager real money, you earn points that dictate the tier level of the program you have  
 reached. With bonus options, players are given a bonus amount of cash within their account to wager  
 with after making a deposit with a provided bonus code. Winnings from the bonus can be cashed out  
 once the bonus and/or playthrough requirements have been met. Essentially, a VIP program rewards you  
 for your real money gameplay while a bonus will need to see you play a certain amount in order to be  
 able to cash out after using bonus cash provided by the casino.
